1. Design Philosophy

Every FMM design should immediately communicate:

- Professionalism
- Premium quality
- Competitive football gaming
- Modern esports aesthetics
- Clean information delivery
- High readability

The goal is to make viewers recognize an FMM design within seconds, even before reading the content.

---

2. Core Design Principles

Every design should follow these five principles:

A. Clarity

Information should be instantly understandable.

B. Consistency

Every poster should look like it belongs to the same brand.

C. Focus

Highlight one primary subject.

D. Balance

Avoid clutter by distributing visual weight evenly.

E. Mobile-First

Design for smartphone viewing before desktop.

---

3. 12-Column Grid System

All posters should use a 12-column layout for balanced alignment.

Margins:

- Left: 60 px
- Right: 60 px
- Top: 60 px
- Bottom: 60 px

Gutters:

- 24 px

This ensures flexibility while maintaining consistency.

---

4. Safe Area

Never place critical content near the edges.

Minimum safe margin:

- 60 px on all sides

Critical elements include:

- Logo
- Player name
- OVR
- CTA
- Footer branding

---

5. Poster Anatomy

Every FMM poster follows the same visual structure.

27. AI Design Instructions

When generating posters with AI (Gemini, ChatGPT, Canva AI, Adobe Firefly, etc.), follow these rules:

- Use a **dark, premium background** with subtle stadium or abstract textures.
- Place the **FMM logo** in the top-left corner with proper spacing.
- Position the **hero player card** at the center as the main focal point.
- Use a **12-column grid** with generous margins and an 8-point spacing system.
- Apply **glassmorphism panels** for review boxes, stats, and information cards.
- Add **soft red or purple glow** behind the player and **gold accents** only for legendary or premium content.
- Use clean outlines, modern icons, subtle shadows, and rounded corners (18–24 px).

- Ensure the design is optimized for mobile viewing, with strong hierarchy and minimal clutter.

---

28. Design Do's

✔ Keep the player as the focal point.

✔ Maintain visual balance.

✔ Use approved colors only.

✔ Use consistent spacing.

✔ Follow typography hierarchy.

✔ Leave enough breathing space.

✔ Design mobile-first.

✔ Use subtle premium effects.

✔ Keep layouts clean.

✔ Maintain high image quality.

---

29. Design Don'ts

❌ Overcrowd the layout.

❌ Use more than three accent colors.

❌ Stretch player renders.

❌ Use inconsistent spacing.

❌ Add excessive glow.

❌ Use low-quality images.

❌ Cover important player details.

❌ Mix unrelated icon styles.

❌ Ignore safe margins.

❌ Place text on busy backgrounds without overlays.

---

30. Master Layout Templates

Every FMM design should be based on one of these standardized layouts:

Layout	Primary Use
Hero Review	Single Player Reviews
Comparison	Player vs. Player
Squad Builder	Team Lineups
Top 10 List	Rankings
Event Guide	FC Mobile Events
Pack Opening	Pack Results
Market Watch	Coin Investments
News Flash	Game Updates
Tutorial	Tips & Tricks
Announcement	Brand or Community Updates

These templates ensure a consistent visual identity while allowing flexibility for different content formats.

Final Design System Statement

The FMM Design System establishes a unified visual language that combines premium football aesthetics, esports-inspired layouts, and modern UI principles. Every poster,

thumbnail, and graphic should feel instantly recognizable through consistent spacing, typography, color usage, lighting, and composition. By following this system, FMM maintains a professional identity that is scalable, memorable, and optimized for audiences across Facebook, Instagram, YouTube, and future platforms.
