1. Purpose

This document serves as the official **reference library** for the FC Mobile Mania (FMM) brand. Unlike the previous documents, which define standards and guidelines, this library demonstrates those standards in action through complete, real-world examples.

The objective is to help AI systems, designers, writers, and future team members understand not only *what* the FMM style is, but also *how* it is applied in practice.

These examples should be treated as templates and adapted to fit future FC Mobile updates, players, and events.

---

2. How to Use This Document

When creating new content:

1. Identify the content type (review, comparison, event guide, etc.).
2. Locate the matching example in this document.
3. Follow its structure, tone, and visual style.
4. Replace player names, event details, or statistics with current information.
5. Verify all facts before publishing.

Do not copy examples word for word. Use them as style references.

---

3. Standard Example Format

Every example should include:

- Content Objective
- Recommended Canva Layout
- Recommended Colors
- Typography
- Poster Layout
- Caption
- CTA
- Hashtags
- Publishing Notes

This ensures both the visual design and written content follow the same standards.

EXAMPLE 1 – Player Review

Objective

Review a newly released striker card.

Recommended Layout

Template A – Hero Player Review

Poster

- Player centered
- OVR on the right
- Pros and Cons panel
- Review score badge
- FMM logo in the top-left
- Black background with Red and Purple glow

Caption

🔥 Is this the best striker in FC Mobile right now?

After testing this card across multiple Division Rivals matches, it's clear that his finishing and positioning are among the best in the current meta. His pace allows him to create space effortlessly, while his movement inside the box consistently leads to goal-scoring opportunities.

✅ Strengths

- Elite finishing
- Excellent positioning
- Fast acceleration
- Reliable weak foot

❌ Weaknesses

- Average heading
- Slightly weak physicality

⭐ Verdict

A fantastic option for players looking for an elite striker without sacrificing mobility. If you can afford him, he's a strong addition to almost any attacking setup.

👇 Would he make your starting XI?

EXAMPLE 2 – Player Comparison

Objective

Compare two elite center-backs.

Layout

Template B – Comparison

Poster

- Player A on the left
- Player B on the right
- "VS" in the center
- Stats below each player
- Verdict at the bottom

Caption

⚔️ **Which defender deserves a place in your squad?**

Both cards offer elite defensive abilities, but they excel in different areas.

Player A

✔ Better interceptions

✔ Faster recovery pace

Player B

✔ Stronger physical presence

✔ Superior aerial ability

🏆 **Verdict**

If you prefer aggressive defending, Player B has the edge. If pace is your priority, Player A is the better choice.

👇 **Who would you choose?**

Caption

🎉 **A brand-new event has arrived!**

This event offers several high-value rewards, including premium players and upgrade materials.

Best Strategy

- Complete daily objectives.
- Save event currency.
- Prioritize milestone rewards.
- Avoid spending resources too early.

⭐ **Recommendation**

A worthwhile event for both free-to-play and premium players if resources are managed efficiently.

4. AI Learning Instructions

When generating FMM content using AI (Gemini, ChatGPT, Claude, Canva AI, Adobe Firefly, etc.):

- Study these examples before creating new content.
- Follow the same structure, tone, and design principles.
- Adapt the examples to current FC Mobile updates and players.
- Maintain the official FMM typography, color palette, layouts, and caption style.
- Never copy examples verbatim; treat them as reusable templates.
- Verify all player information, statistics, event details, and market prices before publishing.

---

5. Future Example Library

This document should continuously grow. Recommended additions include:

- 25 Player Reviews
- 15 Player Comparisons
- 15 Event Guides
- 10 Pack Openings
- 10 Squad Builders
- 10 Market Watch Posts
- 10 Tutorials
- 10 News Posts
- 10 Community Polls
- 10 Giveaway Announcements
- 10 YouTube Thumbnail Examples
- 10 Instagram Carousel Examples

A mature library of **100+ examples** will make AI-generated content significantly more consistent and closely aligned with the FMM brand.

Final Example Library Statement

The FMM Example Posts Library transforms the brand standards into practical, repeatable content. By providing complete examples of visuals, captions, layouts, CTAs, and hashtags, it enables designers, writers, and AI systems to consistently produce content that reflects the premium, informative, and community-driven identity of FC Mobile Mania. As the library expands over time, it will become the primary training resource for maintaining brand consistency across every platform and content type.

A recommendation for the next phase

You've now completed a solid **10-document brand system**. To take FMM to an enterprise level, I'd add a **Phase 3** with documents such as:

1. **FMM Brand Assets Manual** (logos, icons, templates, mockups)
2. **AI Master Prompt Book** (optimized prompts for Gemini, ChatGPT, Canva AI, Firefly, etc.)
3. **Content Calendar & Posting Strategy**
4. **Visual Asset Library Index**
5. **SEO & Metadata Guide**
6. **YouTube Thumbnail Playbook**
7. **Video Editing Style Guide**
8. **Community Management Guide**
9. **Website & UI Design Standards**
10. **Brand Governance Manual**

With these additions, FMM would have documentation comparable to the internal brand systems used by large media companies, making it much easier to scale your content creation while keeping a consistent identity.
