FMM Typography Guide

Version: 1.0

Brand: FC Mobile Mania (FMM)

Purpose: Official Typography Standards for Posters, Social Media, YouTube Thumbnails, Videos, Website, Presentations, Motion Graphics, and AI-Generated Designs.

---

1. Purpose of This Guide

Typography is one of the strongest elements of the FMM visual identity. A consistent font system improves readability, reinforces brand recognition, and ensures every design feels premium and professional.

This guide defines the approved fonts, hierarchy, sizing, spacing, and usage rules that must be followed across all FMM content.

---

2. Typography Philosophy

FMM typography is inspired by:

- EA SPORTS FC interfaces
- Modern football broadcasts
- UEFA Champions League graphics
- ESPN and Sky Sports broadcasts
- Professional esports branding
- Minimalist gaming UI

The typography should always feel:

- Bold
- Clean
- Modern
- Premium
- Easy to read

- Mobile-friendly
- Professional

Typography should enhance the design, not dominate it.

---

3. Official Font Family

Only the following fonts are approved for FMM branding.

Purpose	Font	Weight
Main Headlines	League Spartan	Bold (700–800)
OVR Numbers	Anton	Regular
Player Statistics	Rajdhani	SemiBold
Review Content	Inter	Regular / Medium
Captions	Poppins	Medium
Small Labels	Roboto	Regular
Numbers & Tables	JetBrains Mono	Medium
Quotes (Optional)	Montserrat	SemiBold

No other fonts should be used unless specifically approved for a special campaign.

---

4. Typography Hierarchy

Typography should follow a clear visual hierarchy to guide the viewer's attention.

Level	Element	Font
H1	Main Title	League Spartan Bold
H2	Player Name	League Spartan Bold

H3	Section Heading	Poppins SemiBold
H4	Subheading	Rajdhani SemiBold
Body	Review Text	Inter Regular
Caption	Supporting Text	Poppins Medium
Labels	Icons & Small Text	Roboto Regular
Numbers	OVR, Coins, Stats	Anton / JetBrains Mono

---

5. Font Usage by Content

A. Headlines

Font: League Spartan Bold

Use for:

- Main titles
- Poster headings
- Event names
- Video titles
- Cover pages

Characteristics:

- Large
- Bold
- High contrast
- Uppercase preferred

Example:

BEST CB IN FC MOBILE

B. Player Name

Font: League Spartan Bold

Use for:

- Player names
- Team names
- Comparison titles

Example:

RONALDINHO

Player names should always stand out from the rest of the design.

C. OVR Numbers

Font: Anton

Use for:

- Overall Rating
- Card Rating
- Big Numbers

Example:

109

Anton provides excellent visibility even on mobile devices.

D. Player Statistics

Font: Rajdhani SemiBold

Use for:

- Pace
- Shooting
- Passing
- Dribbling
- Defending
- Physical

Example:

PACE
145

Rajdhani offers a clean, modern, gaming-inspired appearance.

E. Review Paragraphs

Font: Inter Regular

Use for:

- Gameplay analysis
- Strengths
- Weaknesses
- Explanations
- News articles

Characteristics:

- Comfortable reading
- Excellent readability
- Modern appearance

F. Captions

Font: Poppins Medium

Use for:

- Facebook captions
- Instagram captions
- Thumbnail subtitles
- CTA text

Poppins is highly readable across mobile and desktop platforms.

G. Small Labels

Font: Roboto Regular

Use for:

- Watermarks
- Footer information
- Tags
- Metadata
- Date
- Version

Roboto maintains clarity at very small sizes.

H. Numbers and Tables

Font: JetBrains Mono

Use for:

- Coins
- Statistics
- Market Prices
- Tables
- Charts

Monospaced fonts improve alignment and readability for numerical content.

---

6. Font Weights

Approved weights:

Font	Allowed Weights
League Spartan	Bold, ExtraBold
Anton	Regular

Rajdhani	Medium, SemiBold
Inter	Regular, Medium
Poppins	Medium, SemiBold
Roboto	Regular
JetBrains Mono	Medium

Avoid Thin, Light, or ExtraLight weights.

---

7. Text Alignment

Preferred alignment:

- Left-aligned for paragraphs
- Center-aligned for titles when appropriate
- Right-aligned only for numerical statistics or comparison layouts

Avoid justified text.

---

8. Text Color Standards

Primary text colors:

Purpose	Color
Main Title	White
Body Text	White
Highlights	FMM Red
Premium Content	Purple
Legendary Content	Gold

Secondary Text	Light Gray (#D9D9D9)

Never use low-contrast colors that reduce readability.

---

9. Recommended Font Sizes

100–110%

---

12. Text Effects

Approved effects:

- Soft shadow
- Outer glow (subtle)
- Light gradient fill
- Stroke (1–2 px if needed)
- Glass effect behind text
- Blur background for contrast

Avoid:

- Heavy bevels
- 3D text
- Excessive glow
- Rainbow gradients
- Animated text distortions

---

13. Capitalization Rules

Main Headlines:

UPPERCASE

Example:

BEST LW IN FC MOBILE

Player Names:

UPPERCASE

Section Titles:

Title Case

Example:

15. Readability Standards

Every text element must:

- Be readable on mobile devices
- Maintain strong contrast
- Avoid overlapping graphics
- Have adequate spacing
- Never cover important player faces or cards

---

16. AI Typography Instructions

When generating designs using AI (Gemini, ChatGPT, Canva AI, Adobe Firefly, etc.), follow these rules:

- Use **League Spartan Bold** for all primary titles and player names.
- Use **Anton** for OVR numbers and large numerical highlights.
- Use **Rajdhani SemiBold** for player attributes and statistical labels.
- Use **Inter** for review text and detailed explanations.
- Use **Poppins Medium** for captions, subtitles, and calls to action.

- Use **Roboto Regular** only for small labels, metadata, and footers.
- Maintain a clear hierarchy with strong contrast, generous spacing, and mobile-friendly sizing.
- Avoid decorative, script, or novelty fonts that reduce readability or conflict with the FMM identity.

---

17. Typography Do's and Don'ts

✅ Do

- Use only approved fonts.
- Maintain consistent hierarchy.
- Keep titles bold and prominent.
- Prioritize readability.
- Use white text on dark backgrounds.
- Highlight key information with brand colors.
- Keep spacing balanced and uncluttered.

❌ Don't

- Mix unrelated font families.
- Use more than three fonts in one design.
- Stretch or distort text.
- Apply excessive glow or heavy outlines.
- Overuse ALL CAPS in body text.
- Place text over busy backgrounds without contrast.
- Use fonts that do not match the FMM brand identity.

Final Typography Statement

Typography is a defining element of the FC Mobile Mania (FMM) brand. Every title, player name, statistic, and caption should communicate clarity, confidence, and professionalism. By consistently applying the approved font system, hierarchy, and spacing rules, FMM ensures every piece of content is instantly recognizable, highly readable, and visually aligned with the premium standards of modern football gaming media.

FMM Color Palette Guide

Version: 1.0

Brand: FC Mobile Mania (FMM)

Purpose: Official Color Standards for Posters, Social Media, Thumbnails, Videos, Motion Graphics, Website, Branding, and AI Design Generation.

---

1. Purpose of This Guide

This document defines the official color system of **FC Mobile Mania (FMM)**. Every design, poster, thumbnail, social media graphic, video, presentation, website, and marketing material must follow these standards.

The objective is to create a recognizable visual identity that instantly communicates professionalism, energy, and modern football aesthetics.

---

2. Brand Color Philosophy

FMM's color system is inspired by:

- Modern football broadcasts
- EA SPORTS FC branding
- Stadium floodlights
- Competitive esports
- Premium gaming interfaces
- Neon lighting
- Luxury sports branding

The palette combines dark backgrounds with vibrant accents to create high contrast and immediate visual impact.

---

3. Primary Brand Colors

These colors represent the FMM identity and should appear in almost every design.

Neon Blue	**#00E5FF**	UI Highlights
Neon Green	**#00FF7F**	Positive Indicators
Neon Gold	**#FFC107**	Luxury Highlights

---

6. Usage Ratio

Every design should approximately follow this balance:

- **60%** Jet Black
- **20%** White
- **10%** FMM Red
- **5%** Purple
- **5%** Accent Colors

This creates consistency across all branding.

---

7. Color Hierarchy

Level 1 (Highest Priority)

- Black
- Red
- White

These colors should always dominate.

Level 2

- Purple
- Gold

- Silver

Used for emphasis and premium elements.

Level 3

- Blue
- Orange
- Green

Used sparingly for charts, icons, and supporting information.

---

8. Background Colors

Preferred backgrounds:

- Solid Black
- Dark Stadium
- Dark Carbon Fiber
- Dark Metal Texture
- Matte Black
- Blurred Stadium
- Dark Gradient

Avoid bright, colorful, or distracting backgrounds.

---

9. Approved Gradients

Gradient A (Official Brand)

---

10. Glow Colors

Glows should be soft, controlled, and never overpower the content.

Element	Glow Color
Logo	Neon Red
Premium Cards	Purple
Icons	White
Ratings	Gold
Buttons	Red
Player Cards	Purple or Red
Titles	Soft White

Glow intensity should remain subtle to preserve readability.

---

11. Shadows

Recommended:

- Soft shadows
- Long shadows
- Ambient shadows
- Directional lighting

Avoid heavy black shadows or unrealistic effects.

---

12. Transparency Standards

Recommended opacity values:

Glass Panels: **15–25%**

Background Overlays: **40–60%**

Information Cards: **80–90%**

Footer: **90%**

---

13. Accessibility Standards

Maintain strong contrast:

- White on Black ✔
- Red on Black ✔
- Gold on Black ✔
- Purple on Black ✔

Avoid:

- Red on Purple ✘
- Blue on Purple ✘
- Grey on Black ✘
- White on Gold ✘

All text should remain readable on mobile devices.

---

14. Platform-Specific Color Usage

Facebook

High contrast with bold Red and White to maximize visibility in feeds.

Instagram

Use premium gradients, Purple accents, and subtle glows for a polished look.

YouTube

Strong Red highlights, dark backgrounds, and bright White text for effective thumbnails.

Website

Maintain a clean, dark theme with Red as the primary interactive color and Purple reserved for premium sections.

---

15. Color Usage by Content Type

Content Type	Primary Colors
Player Review	Black, White, Red
Comparison	Black, Red, Purple
Event Guide	Black, Purple, Gold
Pack Opening	Black, Gold, Red
Squad Builder	Black, White, Blue
News	Black, White, Red

Poll	Black, Red, White

---

16. Prohibited Color Usage

The following practices are not allowed:

- Bright pastel color palettes
- Random rainbow gradients
- Fluorescent backgrounds
- Oversaturated neon effects
- More than three accent colors in one design
- Low-contrast text
- Unapproved brand colors replacing FMM Red
- Excessive glow that reduces readability

---

17. AI Design Instructions

When generating designs with AI (Gemini, ChatGPT, Canva AI, Adobe Firefly, etc.), follow these rules:

- Use **Jet Black (#050505)** as the dominant background.
- Apply **FMM Red (#E1062C)** for primary highlights and calls to action.
- Use **Pure White (#FFFFFF)** for titles, player names, and key text.
- Reserve **Royal Purple (#8A2BE2)** for premium or special-event content.
- Add **Gold (#FFD700)** only for legendary, ICON, or achievement-related visuals.
- Keep accent colors minimal, ensuring the design remains clean, modern, and easy to read.
- Prefer subtle gradients, restrained glow effects, and high contrast suitable for mobile viewing.

Final Color Statement

The FMM color system is built to reflect professionalism, passion, and premium football gaming aesthetics. Every design should prioritize consistency, readability, and visual impact by using a dark foundation, bold brand red, clean white typography, and selective premium accents. The color palette should instantly signal that the content belongs to FC Mobile Mania, regardless of platform or format.
